

Sweet Pepper

Cantora

Cantora

A distinctive sweet pepper for Central and South America. It has resistance or tolerance to a wide range of viruses, including tobacco mosaic, etch and potato Y. Plants are tall and vigorous. They are somewhat branched and offer excellent fruit coverage. The fruit is dark green with thick walls and medium-large broad shoulders. The fruit is generally three lobed and tapers to a blunt or semi-pointed blossom end. The length is 7.5-10 cm., diameter 5-7.5 cm., maturity 100-120 days.
